

EZ Flow Gravel-Free Drain System

Uses Include:

- Golf Course Water Management
- Landscape Drainage
- Retaining Wall Drainage
- French Drains
- Downspout Drainage
- Foundation Drain

The patented EZ Flow gravel-free drainage system utilizes the time proven principals used in gravel systems for drainage, while eliminating the problems inherent with using gravel. Moving, installing and cleaning up gravel is completely eliminated when using this product. There is no need for heavy equipment to install gravel thus eliminating any unnecessary sod disturbance, making this product ideal for landscaping and golf course water management. When using the EZ Flow products, you can save 50% on associated labor costs, while providing a superior flowing product. Use the EZ Flow on your next job to see why its popularity is growing.

EZ Flow Is Being Used In Several Top Golf Courses:

- The entire Robert Trent Jones Golf Trail (AL)
- LPGA International (Daytona Beach, FL)
- Monterey Peninsula (Pebble Beach, CA)
- Philadelphia GC (Gladwynne, PA)
- Farm Links (Sylacauda, AL)
- Spring Creek Ranch (Collierville, TN)
